City of Fort Bragg	Mendocino	2021	Local Streets and Roads Program	Procurement/Operational Needs	Completed	Traffic Control Devices	Accessible Parking in the Central Business District (traffic control signage and associated pavement markings)	This project will include: Public Works Staffing, Procurement of Road Maintenance and Rehab Materials   Work to be completed by own forces. If we need to upgrade ADA pathway for parking lot, this will be completed by Contractor separate from City Forces.	100 Block of East Laurel and Alley N300E between Franklin and McPherson.	05/03/2021	05/28/2021	\$5,699.32	\$5,699.32	-	\$5,669.32	No		3-7	2	2	2
City of Fort Bragg	Mendocino	2021	Local Streets and Roads Program	Construction	No Longer RMRA Funded	Traffic Control Devices	Crosswalk and Street Marking	This project will include: Pavement Rehab/Repair (Existing), Paving and/or Striping Rehab/Repair (Existing Safety)   Centerline, fog line, bicycle lane, and crosswalk markings provide cost-effective roadway guidance that helps reduce crashes and supplement other traffic control devices such as sign and signals. The City's existing pavement markings need replacing in many locations; these will be replaced by thermoplastic and raised pavement markers. This year nine streets have been identified for such work. The street striping project will replace all white and yellow line markings, decals, raised markers, and word pavement markings on approximately 3.5 miles of streets. The selected streets include arterials, collectors, and safe routes to school. The standards for the application of markings and delineation are set forth in the California Manual on Uniform Traffic Control Devices (MUTCD). The unfunded balance for this project will be covered with local street sales tax dollars.	Chestnut Street, East Oak Street, East Pine Street, Redwood Avenue, Manzanita Street, North Franklin Street, South Harold Street, South Lincoln Street, and Willow Street	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	2	2	2	
City of Fort Bragg	Mendocino	2021	Local Streets and Roads Program	Procurement/Operational Needs	Completed	Road Maintenance & Rehabilitation	Street and Alley Pavement Maintenance	This project will include: Procurement of Road Maintenance and Rehab Materials, Repair and Servicing of Public Works Equipment   When small localized areas of pavement are found to be in poor condition they are treated with small scale pavement repair. Small scale pavement repair must be done in a timely fashion; as potholes grow and allow water intrusion which leads to more large scale deterioration of the pavement. Surface patching and crack sealing are the two primary intermediary actions taken to conserve the existing conditions of pavement. Pothole patching is the most common local technique, done by milling a portion of the pavement to a depth that removes all deteriorated material and then the pothole is filled with asphalt and compacted. The goal of this project is to prevent the local/residential streets and alleys with low PCI's from deteriorating into an un-usable state as these street categories often go unselected for full	City Wide	08/03/2020	06/30/2021	\$106,211.76	\$106,211.76	-	\$106,211.76	No		2-10	2	2	2

<b>City of Rancho Mirage RMRA Funds Spent in FY 2020-2021 - \$354,345.7. Total Number of Projects Reported - 1</b>																					
City of Rancho Mirage	Riverside	2021	Local Streets and Roads Program	Construction	In Progress	Road Maintenance & Rehabilitation	Monterey Avenue Street Pavement Rehabilitation	This project will include: This project will include a full rehabilitation of existing pavement for ¾ of a mile on the southbound lanes of Monterey Avenue between Hovley Lane and the north edge of the bridge at the Whitewater Channel. The existing pavement has deteriorated over numerous years and is in poor condition over the entire length of the subject area. The City plans to utilize a cold in-place recycling method with a hot mix top course to reconstruct the ¾ mile stretch of roadway. City of Rohnert Park RMRA Funds Spent in FY 2020-2021 - \$1,504,412.85. Total Number of Projects Reported - 12																					
City of Rohnert Park	Sonoma	2021	Local Streets and Roads Program	Pre-Construction	No Longer RMRA Funded	Road Maintenance & Rehabilitation	2019-2022 Pavement Management (Crack Seals and Slurry Seals)	This project will include: Preliminary Design   Pavement preservation treatments including crack seals and slurry seals. Crack sealing prevents the intrusion of water and incompressible material into the cracks and reinforces the adjacent pavement. Slurry seals further seal the cracks, restore lost flexibility to the pavement surface, provide a deep, rich black pavement surface color, protect the underlying pavement and provide a new driving surface.	Southwest Boulevard between Adrian Drive and Snyder Lane; Snyder Lane between Holly Avenue and Golf Course Drive; Golf Course Drive between SMART Railroad Tracks and Fairway Drive; Commerce Boulevard between Enterprise Drive and Golf Course Drive. City of Rohnert Park	Sonoma	2021	Local Streets and Roads Program	Pre-Construction	No Longer RMRA Funded	Road Maintenance & Rehabilitation	2019-2022 Pavement Management (Cape Seal Project)	This project will include: Document Preparation, Cost Estimating, Preliminary Design, Project Scope Development   Pavement preservation treatments including small areas of pavement repair (i.e. "digouts") and cape seal application (i.e. a combination of chip seal and thin slurry seal). Cape seals are used when the pavement deterioration is greater than what a slurry seal or microsurfacing is designed to correct, yet the pavement has not deteriorated to the point of requiring an expensive asphalt overlay. A cape seal prevents water penetration, reducing subsequent damage to the road bed, along with providing a new wearing surface.	Golf Course Drive between Country Club Drive and Hillview Way; Snyder Lane between Golf Course Drive and Moura Lane	N/A	N/A	\$16,393.34	N/A	\$16,393.34	N/A	N/A	N/A	N/A	4	3	5
